Baudolino is a novel by Umberto Eco about the adventures of a man named Baudolino in the known and mythical Christian world of the 12th century. Baudolino was translated into English in by William Weaver. Baudolino, Umberto Eco Baudolino is a novel by Umberto Eco about the adventures of a man named Baudolino in the known and mythical Christian world of the 12th century/5. Baudolino is an admitted liar and therefore an Unreliable Narrator. He goes back and forth in his unreliable narration. He accompanies the Emperor on the Third Crusade and winds up back in Constantinople (which he accurately describes as an indescribably large, prosperous, and beautiful city on the eve of the Fourth Crusade).Reviews:

Baudolino is a forger of fictions - his love poems resemble Cyrano, he makes up a letter from the legendary Prester John, ruler of a fabulous faraway land, and devises imaginary maps of the known.
