Use features like bookmarks, note taking and highlighting while reading Blood Craft (The Shadow Sorceress Book 2).Reviews: the fight continues in King City as Amber tries to get control of her shadow sorceress magic. A new danger has hit the city, taking over people. Her coworkers are not what they appear, a few seem to be different than the average human/5. I really still don't even like the heroine in this book and kind of realize that the story itself is pulling me along in this book series. The story and the way that the author's imagination creates a series is much more tantalizing than the individual characters.
